Safety Instructions:

- Wear the glasses while working in environments with potential hazards to the eyes.
- The glasses should be replaced immediately if they are damaged or worn.
- Make sure that the goggles fit correctly to ensure optimum protection.
- Clean the glasses regularly with suitable cleaning agents to ensure clear vision.
- Avoid contact of the glasses with chemicals or solvents that could damage the material.
- The goggles are not suitable for use at high temperatures or in fire hazards.
- The goggles do not protect against mechanical effects beyond those specified in the standards.
