Safety Instructions:

- Only wear the boots on flat, dry surfaces and avoid slippery surfaces to prevent falls.
- Regularly check the condition of the boots, especially the sole and padding, to ensure that they provide adequate protection.
- If the boots are soiled, clean them according to the manufacturer's instructions to maintain their water-repellent properties.
- Make sure that the boots are worn correctly to ensure optimum support and safety for the foot.
- Do not wear the boots in flammable or explosive environments to avoid the risk of injury.
