Article Numbers: 709486, 709485

Safety Instructions:

- Ensure that the safety boots comply with the CE EN ISO 20345 standard and are checked regularly to ensure safety.
- The protective toe cap offers a high level of protection, but not a metal cap. Ensure protection from heavy objects.
- Maintain the waterproofness of GORE-TEX® equipment through proper cleaning and care.
- Do not use boots in extreme climates or unconventional environments.
- Only use other safety equipment if it is explicitly compatible with the boots.
- HAIX® Smart Lacing System for a secure and comfortable fit and proper maintenance.
- Boots are flame retardant; avoid contact with naked flames and extreme heat.
- Not suitable for children. Be aware of the risk of strangulation due to laces.
- Take care in wet conditions. Be aware of the risk of slipping.
- Boots properly laced for optimum support.
- In the event of visible defects or damage, stop using the boots and contact the manufacturer.
