Article Numbers: 709503, 709502

Safety Instructions:

- Ensure that the boots are in good condition and have no visible damage before using them.
- Make sure that the boots fit well and do not cause chafing to avoid foot injuries.
- Avoid contact with sharp or pointed objects that could damage the sole or upper material.
- The composite protective toe cap and the penetration-resistant insole should be made of the appropriate material.
- Only use the boots for their intended purpose to minimise the risk of injury.
- Keep the boots clean and dry to ensure the functionality of the materials.
- Ensure that the shoes are well ventilated and stored in a dry place after use to prevent mould growth.
- Maximum protection guaranteed by S3 HRO HI CI WR SRC classification.
- Suitable for use in extreme weather conditions such as ice or snow, but take care on slippery surfaces.
- Avoid contact with aggressive chemicals despite using chemical-resistant materials.
- Regularly check the condition of the boots, especially the sole and the protective cap, to ensure safety.
- The use of shoe polish or care products should be tested for compatibility in advance.
- In extreme conditions, wear suitable socks to minimise cold and heat loss and increase comfort.
