Article Numbers: 709481, 709480, 709478, 709477

Safety Instructions:

- Can only be used on flat, solid surfaces.
- Ensure that the sole is in good condition to avoid the risk of slipping and take additional measures to prevent slipping in wet conditions.
- The protective toe cap must not be deformed or damaged.
- Regular inspections for wear or damage are required and shoes should be replaced if necessary.
- Risk of suffocation due to improper use or handling, especially with small parts.
- Do not guarantee puncture resistance in case of intensive pressure or cutting loads over a longer period of time.
- Blindness or injuries due to inadequate protection against mechanical impacts.
- Use at extreme temperatures can affect the material integrity, avoid extreme temperatures to prevent damage.
- Always wear suitable safety shoes at work to avoid injuries, blisters or other foot problems.
- Keep the shoe dry, clean it regularly and store it in a cool, dry place to maximise its lifespan.
- Risk of injury when walking on slippery or wet surfaces, even though the shoes are non-slip.
- Risk of electric shock when used in electrical environments, ensure that the ESD properties are observed.
