Please note the technical data of the products!

Article Number: 709996

Safety Instructions:

- Only use outdoors, as operation indoors can lead to carbon monoxide poisoning.
- When using the generator, ensure that it is placed on a stable, level surface to prevent it from tipping over.
- Observe the overload protection provided by the thermal circuit breaker and do not overload to avoid damage.
- Check the oil level regularly and top up if necessary to prevent engine damage.
- Before refuelling, allow the generator to cool down first to avoid the risk of fire.
- Observe protective measures against splashing and impact damage to avoid injuries.
- Use recommended fuels and oils to ensure that the engine functions properly.
