Safety Instructions:

- Not suitable for children under 3 years of age as small parts can be swallowed. Keep out of the reach of children as small parts can be dangerous.
- Improper use can damage the case, which can lead to injuries. Only use products for their intended purpose in order to minimise risks.
- Store the product in a dry place to avoid damage caused by moisture. Make sure to protect the case from moisture to ensure the longevity of the materials.
- Avoid contact with aggressive chemicals to ensure material integrity.
- Follow the instructions for the safe use and disposal of the product. Ensure that all users are familiar with the instructions before using the product.
- Ensure that the hinges and latches function properly to prevent injuries. Regularly check the stability and functionality of the red latches and hinges.
- Store smaller items in a separate box to minimise the potential risk of damage or injury.
- Avoid extreme temperatures that could affect the integrity of the polypropylene.
- Caution: Foam inserts can be a choking hazard for small children. Foam inserts are not to be used as toys and may pose a choking hazard.
- Take care to protect the case from hot surfaces and liquids to prevent damage to the material.
- Ensure that the case is fully closed to prevent it from opening unexpectedly during transport.
- Do not load the product beyond the specified dimensions to avoid injury or damage. Ensure that the case is not overloaded to prevent damage to the contents and case.
- Caution: Sharp edges on the fasteners can cause injuries.
- Please note that the product does not contain any chemical components that are harmful to health.
