Safety Instructions:

- Caution: Do not damage or deform the high-pressure hose.
- Observe the maximum operating pressure of 4 bar to avoid overpressure.
- Avoid contact with sharp or abrasive surfaces.
- The frost resistance only applies down to -30°C, observe ambient conditions.
- Always check for visible damage to the hose before use.
- Only use the hose for the intended applications, do not use it improperly.
- Keep the hose away from heat sources and avoid direct sunlight.
- No repairs may be carried out on damaged areas of the hose.
