Article Numbers: 663121, 663120, 663119, 663118, 663116, 663113

Safety Instructions:

- Ensure that the display case is properly installed and secured in extreme weather conditions and is regularly maintained to ensure weather protection.
- Avoid using sharp objects to clean the toughened safety glass to prevent scratches.
- The hinged door must be securely locked to prevent unauthorised opening and must only be opened and closed with gas struts.
- Keep the area around the display case free of obstacles to avoid tripping hazards.
- During installation, all safety instructions and installation materials provided should be followed to ensure structural integrity and safety.
- Be aware of the risk of suffocation due to improper handling of the hinged door.
- Safety glass can break if shattered; observe appropriate safety measures. Safety glass in accordance with DIN 1249, EN 12150 is used to minimise the risk of breakage.
- Watch out for sharp edges during assembly and use; frames should be assembled out of the reach of children.
- Regular maintenance is required for safe outdoor use; the display case should be securely mounted on a wall or use an optional stand system for stability.
- The cylinder lock should always function properly to prevent unauthorised access.
- Continuous checking of the weather resistance of the rubber seal is necessary to ensure weather protection.
- The display case should not be subjected to excessive loads, especially if toughened safety glass is used.
- Children should be supervised to ensure that they do not come into contact with sharp surfaces or the door mechanism.
