## **BonTon waste separation system, 70 liters, recycled polypropylene, unique design, W 280 x D 430 x H 771 mm, various designs**

**Manufacturer/Responsible Person:** Vepa Bins B.V., Schrijnwerkersweg 15, 1786 PC Den Helder, Nederlande

**E-Mail:** verkoop@vepabins.nl

Please note the technical data of the products!

**Article Numbers:** 663160, 663156, 663154, 663152

### **Safety Instructions:**

- No parts in the waste separation system are small enough to pose a choking hazard. When handling the product, it is recommended to ensure that no small parts are lost during assembly to avoid the risk of choking, especially in the presence of small children.
- The product is made from 100% recycled material and should therefore be safe to use. Please note that residues of the original material may be present during processing.
- The product is used without electrical components and is therefore free from the risk of electric shock.
- The waste separation module should be protected from direct sunlight and extreme temperatures. Avoid direct sunlight to prevent material changes.
- Make sure that the module is stable to prevent it from tipping over. Ensure that the waste separation container is stable to prevent it from tipping over.
- Use with caution; not suitable for contact with food.
- Dispose of in accordance with local regulations for plastic waste.
- Make sure that children cannot play with the product or put it in their mouths. Ensure that the waste separation system is not used as a toy by children.
- Avoid leaving sharp edges on the modules unprotected to prevent injuries. Please ensure that the waste separation modules do not contain any sharp edges or parts that could cause injury.
- Avoid using the module near hot surfaces or naked flames.
- Keep the waste separation system clean and hygienic to minimise health risks.
- Only use waste bags recommended for the product to ensure safe handling and disposal of waste.
