Safety Instructions:

- Only use the chair on level and stable surfaces to prevent it from tipping over.
- Make sure to use the product in accordance with the instructions for seat height adjustment to avoid injury and to ensure that the safety gas spring works.
- Regularly check the stability and functionality of the chair, especially the moving parts such as the gas spring and glides.
- Keep liquid substances away from the artificial leather upholstery and clean it regularly to prevent damage.
- Avoid overloading the chair to prevent damage to the components and adhere to the maximum weight limits.
- Danger due to loose parts and improper use of the seat height adjustment or the glider.
- Not suitable for use by children without supervision; especially not for children under 14 years of age.
- Use in harsh working environments only after ensuring the stability and protection of the material.
- Take care when using the climbing aid; only use it on stable surfaces and correctly to avoid falls.
- Protect PU foam pads from excessive heat and chemical substances.
- Regularly inspect all parts of the chair for wear and damage to avoid safety risks.
