Safety Instructions:

- Only use the laboratory swivel chair on stable, level surfaces and ensure that it is not overloaded when adjusting the height.
- Ensure that castors are suitable for the floor covering in question and are replaced immediately if worn or damaged.
- To avoid damaging the gas spring, do not apply a heavy load in excess of the recommended load.
- The chair is not suitable for children under 3 years of age and is not suitable for use by children.
- Avoid standing on the chair or stretching excessively when using it.
- Carry out regular inspections of the rollers and mechanisms for safety and functionality.
- Adjust the seat height to ensure correct ergonomics.
- Avoid proximity to heat sources, hot surfaces or humid environments to prevent material damage and tipping.
- Risk of suffocation due to improper use or loose parts.
- Risk of slipping when used on smooth surfaces; careful use recommended.
- Ensure that all parts are correctly fitted before use and that the chair is properly assembled.
- The product is only suitable for the intended use in the laboratory and should only be used for this purpose.
- The operating instructions must be followed to avoid damage or injury.
- Protect the chair from extreme heat or direct sunlight.
- Avoid using disinfectants that are not suitable for artificial leather.
- Care instructions required to maintain the antibacterial properties.
