Please note the technical data of the products!

Article Numbers: 41295, 41294, 41293, 308011, 308010, 308009, 308008, 308007

Safety Instructions:

- Avoid choking hazards due to improper handling of small parts, especially in the vicinity of children.
- Be aware of the risk of injury due to improper use of the seat height adjustment and only adjust the seat height while seated to prevent unintentional slipping.
- Regular cleaning and maintenance of the artificial leather in accordance with the manufacturer's instructions to avoid slipping and hygiene risks. Do not use the chair in damp environments to avoid damaging the artificial leather.
- The product complies with laboratory guidelines and is flame retardant. However, smoke poisoning should be avoided.
- Observe the maximum user weight of 120 kg to avoid structural damage or tipping.
- Ensure that the chair is used on a stable, firm surface and that the seat height is correctly adjusted to prevent tipping and falls.
- Regular maintenance and inspection of the safety functions, especially the safety gas spring and glides, to prevent damage and injury.
- Use the backrest adjustment and other settings to ensure the best possible support and make sure that the backrest is properly locked before you lean back.
- Children should not have access to the chair to avoid injury. May contain small building blocks and should therefore be used with caution in the vicinity of children.
- Do not apply excessive force when adjusting the chair so as not to impair its functions. Avoid sitting on the front edge of the seat for a safe posture.
- For correct use, all users must fully understand and follow the operating instructions.
- Avoid use in extreme temperatures and carry out regular inspections for loose parts to minimise safety risks.
- Only adjust the seat height in accordance with the instructions and take care not to pinch fingers.
- Only use the climbing aid in accordance with the instructions to minimise the risk of falling.
- Ensure access to all work areas to minimise the risk of falling.
