

# Product Safety Information

## Industrial swivel chair 9650, imitation leather, glides, black

Please note the technical data of the products!

**Article Numbers:** 46004, 46003, 151945

### Safety Instructions:

- Ensure that the chair is placed on a stable and level surface to prevent it from tipping over.
- The gas spring and the height adjustment mechanism must be checked regularly to ensure that they are working properly in order to prevent injuries caused by unintentional slipping.
- The height must be adjusted carefully and gradually to avoid injury.
- Avoid leaning on the backrest if the chair is not in a stable position.
- Check regularly for damage or wear, especially when used in production environments, and discontinue use if damage is visible.
- Risk of suffocation due to improper handling of mechanical components.
- Risk of slipping due to insufficient grip of the star base or floor glides.
- Risk of injury from sharp edges on mounted parts.
- Do not exceed the maximum weight of 120 kg in order not to jeopardise the stability of the chair.
- If the chair is damaged or worn, discontinue use and request a replacement if necessary.
- Ensure sufficient freedom of movement in the vicinity of the work area to avoid tripping hazards.
