Safety Instructions:

- Check the shelf regularly for stability and damage.
- The shelf should only be used for its intended purpose.
- Max. Load capacity: 50kg per shelf. Do not exceed to ensure safety and stability.
- Ensure that the shelving is placed on a stable and level surface and is stabilised.
- Keep the shelf away from water and direct sunlight to prevent material damage.
- Store heavy objects on the lower shelves to prevent the shelf from tipping.
- Ensure that the inserted materials are stored safely to avoid tipping over or injury.
- Follow the enclosed installation instructions carefully during installation and use.
- Edges and corners of the shelf are potentially dangerous, take care when handling.
