Safety Instructions:

- Store in a safe place before use to prevent unauthorised access.
- Do not store keys near the key cabinet.
- Keep out of the reach of children to prevent choking and accidental access.
- Suitable for dry indoor areas; avoid direct sunlight, moisture and contact with water.
- Improper use can damage the lock; maintain the electronic lock regularly.
- Do not overload the product to avoid damage.
- In the event of error messages or damage, disconnect from the power supply immediately and contact the manufacturer.
- Insert the batteries correctly and ensure that they are out of the reach of children.
- Ensure that the door of the key cabinet is always closed and locked.
- Before use, check that the cupboard is secured to the wall to prevent it from falling over.
- Read the operating instructions carefully before first use and follow the safety instructions regularly.
- Only use for the intended purpose and do not overload the key cabinet.
- Ensure that the key cabinet is mounted in a secure and stable location to prevent improper access and falling over.
- Ensure safe disposal of batteries to avoid environmental pollution.
- If the key cabinet or the lock is defective, contact the manufacturer immediately.
- Safety may be impaired if the product is tampered with improperly.
