Safety Instructions:

- Battery-operated electronic locks can cause damage if handled incorrectly. Regularly check the battery status and the function of the lock.
- Ensure that the safe is mounted on a stable and secure surface. Avoid placing heavy objects on the cabinet.
- Safekeeping of valuables in accordance with manufacturer requirements to ensure maximum security.
- Safety level: EN-0 according to CSN EN-1 1143-1. Intended for private use only. Observe the limits of the safety classification.
- Only limited fire and weather protection available. Avoid direct exposure to fire.
- The product is not suitable for storing hazardous substances. Observe the conditions of use.
- Use a double-bit additional lock and keep the key away from children.
- Operate the electronic lock in accordance with the safety instructions to avoid the risk of electric shock.
- Keep the cabinet closed and secure to prevent unauthorised access.
- Important note: Storage in a cool, dry area is recommended.
- The product may contain sharp edges or power-operated components - handle with care.
