Safety Instructions:

- Risk of suffocation due to improper use of small parts or tools. Keep the workbench out of the reach of children.
- Risk of injury from falling objects or improper handling, especially if the work surface is overloaded by more than 750 kg or drawers over 80 kg.
- Risk of falling due to inadequate fastening or improper use. The workbench must be anchored to a stable, level floor.
- Observe safety measures against electrical hazards and ESD. Protect the workbench from splash water, water and aggressive chemicals.
- Wear PPE such as protective clothing, gloves and safety goggles when working with heavy or sharp tools.
- To be operated by adults only; suitable for commercial use. Keep children away during use.
- Maximum worktop load 750 kg. Drawers can be loaded up to max. 80 kg and compartments up to 50 kg.
- Avoid extreme temperatures, moisture and mechanical stress to prevent surface and structural loss.
- Strictly adhere to the manufacturer's instructions for assembly, safe installation, cleaning and use.
- Keep the work surface free of unnecessary materials to avoid tripping hazards and injuries.
- Carry out regular inspections of moving parts to ensure safety.
