Safety Instructions:

- Risk of suffocation due to improper handling or storage of small parts. Keep sharp and heavy tools out of the reach of children.
- Risk of injury due to improper use or overloading. Observe the maximum load capacity of 750 kg and shelves with max. 50 kg.
- Risk of electric shock due to improper installation or use of electrical devices. Observe ESD protection measures.
- Minimise the risk of moisture and electrical appliances to prevent slipping and fire hazards.
- Ensure that the workbench is securely fastened to the floor to prevent it from tipping over or slipping.
- Only use the workbench in accordance with the manufacturer's instructions and within the load limits. To be used by adults only.
- Secure all doors and cabinets to prevent injuries in the event of accidental opening.
- Use personal protective equipment (e.g. gloves, safety goggles) when working at the workbench.
- Keep the work area free of obstacles and unused tools to avoid accidents and impacts.
- Care and regular maintenance of the workbench, including checking for loose or damaged parts to ensure stability.
- Ensure that the workbench is placed on a stable and level surface.
- Even distribution of heavy objects on the worktop to prevent overloading.
