Safety Instructions:

- Ensure that the workbench is securely fixed to the floor to prevent it from tipping over or slipping.
- Do not exceed the maximum load capacity (750 kg for the workbench, 80 kg per drawer, 50 kg per shelf).
- Drawers must not be overloaded and should be loaded evenly to prevent tipping.
- Use ESD protection measures in suitable environments to prevent damage from electrostatic discharge.
- Ensure correct assembly and only use the workbench on stable, level surfaces to prevent it from wobbling or tipping over.
- Wear personal protective equipment when working with tools.
- Keep the workbench clean and free of obstacles to prevent falls and injuries.
- All sides and doors of the drawers must be properly closed to prevent injury and unauthorised access.
- Regularly check drawers and doors for function and locking mechanisms to prevent injuries.
- Only use the workbench for its intended purpose and avoid direct contact with sharp or heavy objects outside of working hours.
- Designed for adult use only; children and untrained personnel should not have access.
- Place and use the workbench in an environment that is free from high static charges and moisture.
