Safety Instructions:

- Before use, make sure that the workbench is stable and positioned on a level surface to prevent it from tipping over.
- Do not exceed the maximum load of 750 kg to ensure stability.
- Check sharp edges and corners and cover if necessary to avoid injury.
- Check the workbench regularly for wear and damage in order to maintain safety.
- Recommend the use of protective equipment for heavy lifting and assembly work.
- Do not leave any liquids on the worktop to avoid the risk of slipping.
- Avoid working in crowded areas to minimise accidents caused by collisions or falling over.
- Follow the instructions for installation and user information to ensure safety during use.
- Avoid the use of hazardous chemicals or materials that could damage the workbench.
- Keep children and unauthorised persons away from the work area to avoid injury.
