Safety Instructions:

- Caution! Sharp edges, risk of cuts. Wear protective gloves to avoid injuries from sharp edges.
- Use only for the intended purpose. Only use the appliance in suitable machines; improper use can lead to injuries.
- Wear safety goggles and gloves. Always use suitable protective equipment, including safety goggles and hearing protection, to avoid injury.
- Only use with suitable devices. Ensure that the machine is equipped with safety devices.
- Check for damage before use. Check the saw blade for damage or wear.
- Do not use near water to avoid electric shocks.
- Hold the workpiece firmly in place to prevent it from slipping during cutting. Secure the workpiece before cutting.
- Do not place your hands near the sawing area during operation. Keep your hands away from the cutting line and use a pushing device if necessary.
- Keep out of reach of children to avoid danger. Must not be used by children. Only by persons who are familiar with the operation of the appliance.
- Ensure that the saw blade is operated at the correct speed.
- Before changing the saw blade, ensure that the machine is disconnected from the power supply. Always disconnect the machine from the power supply before changing the saw blade.
- Ensure safe storage of the saw blade.
- Follow the manufacturer's instructions.
- Keep the work area clean and well lit to avoid accidents.
- Avoid using the circular saw if the saw blade or the machine are not properly mounted.
- Avoid cutting materials that are not intended for this saw, such as metallic objects.
