Safety Instructions:

- Shelf cabinet may only be used by trained personnel.
- Install the product on level and stable surfaces to prevent it from tipping or falling over.
- Note load capacities: Do not load shelves above 150 kg, do not load the entire shelf above 300 kg; shelves designed for a maximum of 50 kg.
- Maximum total capacities: 180 kg, 300 kg, 450 kg. Avoid overloading!
- Protect the shelf from overloading to prevent instability or tipping over.
- Keep children away to avoid injury; product is not suitable for children.
- Do not use the cabinet for hazardous or flammable materials.
- Check edges for sharp points; exercise caution when handling heavy or sharp objects.
- Do not bring the shelf into contact with wet materials or liquids; avoid excessive exposure to liquids.
- Keep ventilation holes clear to ensure air circulation and minimise moisture.
- Install and use safely in accordance with the instructions; contact the manufacturer if you are unsure.
- Do not stand or climb on the shelving unit to avoid falls; do not use aggressive cleaning agents.
- Use lower shelves when storing heavy objects; engage height-adjustable shelves correctly.
- Intended for dry indoor areas; check moving or rotating parts regularly for proper function.
- Fasten securely to walls or other structures to ensure stability.
- Always observe the product safety instructions.
