Safety Instructions:

- Choking hazard due to small parts: Not suitable for children under 3 years. Keep small parts out of the reach of children.
- Observe maximum load capacity and shelf loads: 50 kg, 60 kg and 150 kg per shelf, depending on the enclosure model. Total load capacity: 180 kg, 300 kg or 450 kg, depending on the enclosure. Distribute the load evenly.
- Safety during assembly and use: Set up the cabinet stably and on a stable, level surface, fix it to the wall if necessary and ensure that the cylinder lock functions properly. Follow the user instructions.
- Ensure ventilation: Do not block ventilation openings, install the cabinet in a well-ventilated area to avoid moisture and corrosion.
- Ensure safe handling and storage: Store heavy objects safely, avoid sharp edges, do not store chemical, flammable or combustible materials.
- Use the cabinet stably and safely: Keep an eye on hinged doors to prevent uncontrolled opening and unauthorised access.
- Regular inspection: Regularly check the condition of the cabinet, the ventilation and the safety devices.
- Use the cabinet only for its intended purpose and under adult supervision when used by children.
