E-Mail: info@schaefer-shop.de

Please note the technical data of the products!

Article Numbers: 402404, 402403

Safety Instructions:

- Always hold the shelf properly in the cabinet to avoid overweighting and use appropriate techniques when lifting to avoid injury.
- Avoid loading the shelf above the recommended weight of 100 kg to prevent instability and possible injury. Safe handling when inserting and removing due to the weight of up to 100 kg.
- Make sure that the shelf is installed on a stable and level floor to prevent it from tipping over.
- Keep children away from using the shelf and keep it out of their reach to minimise the risk of injury. The shelf is not suitable for children.
- Avoid sharp edges and contact with wet surfaces to prevent rust formation.
