Safety Instructions:

- Do not exceed the maximum load of 150 kg to avoid structural damage.
- Regularly check the top shelf and the cabinet for damage or deformation and repair or replace if necessary.
- Ensure that the cabinet is standing on a stable and level surface to prevent it from tipping over.
- Do not use the cabinet outdoors to avoid corrosion and damage to the material. Suitable for use in dry rooms.
- Read the enclosed assembly and safety instructions carefully before assembly and use.
- Keep small parts away from children during assembly to avoid the risk of suffocation.
- Ensure that heavy objects are stored securely and evenly to prevent overloading and tipping over.
- Do not move the cabinet alone in narrow aisles to avoid falls or injuries.
- Close the door of the cabinet carefully to avoid crushing injuries.
- Use only for the intended purpose according to the instructions.
- During installation, ensure that all parts are correctly installed and that no electrical cables are damaged.
- When using the cabinet, ensure that it is installed safely and stably.
- Observe correct storage of hazardous materials (e.g. chemicals).
- To ensure safe use, the door handles should be checked regularly for functionality.
- Check for sharp edges and other potential hazards before use.
