Article Numbers: 440319, 440317, 440316, 440315, 440312, 440311

Safety Instructions:

- Ensure that the hinged door cabinet is mounted stably and cannot tip over. Place the cabinet on a level, stable surface and use secure wall fixings.
- Do not exceed the maximum load capacity of the shelves: 50 kg per shelf, 150 kg in total. Observe and do not exceed the total load capacity of 150 kg.
- Ensure safe use of the product to avoid injury from tipping over, collapsing or crushing. Open cabinet doors carefully.
- Take appropriate safety precautions for the storage of hazardous materials and do not store harsh or corrosive chemicals unless intended.
- Avoid access by unauthorised persons, especially children.
- Make sure that heavy items are stored at the bottom and that items that are raised are only stored securely.
- Do not overload the product during use to prevent structural damage.
- Protect the product from moisture and extreme heat to prevent corrosion. Do not use aggressive cleaning agents.
- Pay attention to sharp edges and corners; risk of injury.
- Read and follow the installation instructions carefully before use.
- Check the door mechanism regularly to avoid jamming.
