Article Numbers: 440329, 440327, 440326, 440325, 440322, 440321

Safety Instructions:

- Do not exceed the maximum load of 150 kg.
- The maximum load capacity of the shelves (50 kg) must not be exceeded.
- Ensure safe use of the cabinet in a stable condition.
- Ensure that the cabinet is properly installed to avoid accidents.
- If the stability is insufficient, carry out improvements.
- Include clearly understandable operating instructions and safety instructions.
- Do not use the cupboard as a staircase or platform.
- Adjust the height of the shelves according to the utilisation requirements.
- Observe the safety instructions and installation instructions during installation.
- Make sure that the cabinet is standing on a stable and level surface to prevent it from tipping over.
- Only use the cabinet for its intended purpose for storing work materials and tools.
- Children should be kept away from the cabinet to avoid safety risks.
- Avoid storing delicate or easily breakable materials on the top shelves.
- Ensure that the cabinet is not too close to heat sources.
- Do not overload or block windows to ensure safe access.
- Check that the door mechanisms are working properly to avoid injury.
- Appropriate procedures must be followed for the proper disposal of products.
- Check the cylinder lock regularly to prevent theft.
- Check edges and corners to avoid injury.
