Safety Instructions:

- Drawers must not be overloaded (max. 15 kg per drawer) to avoid the risk of falling and injury.
- The drawer is not suitable for use by children under the age of 12.
- Do not pinch your fingers when opening and closing drawers, risk of injury.
- Secure the drawers against falling out and ensure that they are not opened more than once at the same time to prevent them from tipping over.
- The keys for the central locking system should be kept in a safe place to prevent unauthorised access.
- Avoid improper handling of the drawer contents as there is a risk of suffocation.
- Secure the drawer cabinet to a wall to avoid the risk of falling and place it on a stable, level floor.
- The drawer cabinet is not suitable for storing hazardous substances.
- Only use the drawer cabinet for its intended purpose and follow the assembly instructions exactly to avoid injury.
- Use the child lock to prevent unauthorised access.
- Surfaces may be sharp-edged. Take care when assembling and handling.
- Avoid storing hazardous substances in the cupboard.
- Make sure that the drawer contents are evenly distributed to prevent the risk of tipping.
