Safety Instructions:

- Ensure that the drawer cabinet is placed on a stable and level surface to prevent it from tipping over.
- Observe the maximum load capacity of 15 kg per push to prevent overloading and possible damage.
- Do not pull drawers beyond the maximum pull-out height and open and close them carefully to avoid crushing and falling out.
- Follow the enclosed instructions and safety notes during installation and use.
- Secure the drawer cabinet away from children and place it out of their reach to prevent accidents.
- Only load drawers up to the specified load capacity of 15 kg to avoid overloading.
- The drawers are only designed for the intended use and must not be used as seating.
- Avoid pulling the drawers too quickly and jerkily to prevent damage to the drawer cabinet.
- Do not use if the structure is damaged.
- Keep the keys to the central locking system in a safe place and do not leave children unsupervised with the product.
- To prevent corrosion, do not set up the drawer cabinet in damp or extreme temperature conditions.
- Users should read the operating instructions before using the product.
- In the event of changes or recalls, inform the consumer database immediately.
