Safety Instructions:

- Do not load beyond the recommended load capacity of 15 kg per push.
- Place on a stable and level surface to prevent tipping or falling over.
- Ensure correct handling and drawer guidance to avoid injury and damage.
- Check the castors regularly for damage and activate the safety function to ensure transport safety.
- Do not close drawers with excessive force and only pull them out one at a time to avoid damage.
- Use a central locking system with two keys and ensure that no fingers are trapped to prevent unauthorised access and injuries.
- Not suitable for children under 3 years of age; place the cabinet out of reach of children to avoid the risk of suffocation and injury.
- Before use, ensure that the drawer cabinet is properly closed and secured to prevent it from falling out.
- Follow the manufacturer's instructions for safe use and handling.
- Avoid use near water or damp environments to prevent corrosion.
