Safety Instructions:

- Ensure that the connection is correctly installed to prevent leaks.
- Before installation, ensure that the tank opening and the flange are free of dirt and contamination.
- Wear suitable personal protective equipment, e.g. gloves and safety goggles, especially during assembly work.
- Observe the safety data sheets (SDS) when handling chemicals.
- To avoid damage, do not pressurise the product or subject it to mechanical stress.
- Ensure that the uni-flange connection is only used for the intended storage tanks.
- Check compatibility with the tanks used before installation.
- Check for signs of damage.
- Follow the instructions for safe installation and use of the product.
- Do not use for applications beyond the manufacturer's intended specifications.
