Please note the technical data of the products!

Article Numbers: 704009, 704008, 704007, 704005

Safety Instructions:

- Always wear suitable personal protective equipment (PPE) such as safety goggles, gloves and hearing protection.
- Only use the indexable insert in accordance with the defined technical specifications and operating conditions and in the recommended speed and feed ranges.
- Ensure that the cutting plate is correctly installed and secured to prevent it from breaking out during operation.
- Ensure that the machine is properly secured during operation to prevent injuries caused by flying parts.
- Keep the work areas clean and free of unnecessary materials and obstacles.
- Ensure that all safety regulations for machines are observed and that the tool is checked for damage before use.
- Follow the instructions for safe handling and processing of the product and read the operating instructions carefully before use.
- The product should only be used in the intended area of application and not in a damaged condition.
- Keep other people at a safe distance during operation to avoid injury from cuts or fragments.
- The use of the product in both traditional and CNC applications requires specialised knowledge. Follow all safety-related instructions in the manual.
