Safety Instructions:

- Risk of injury from sharp edges of the drill bit; suitable protective measures such as wearing safety goggles and gloves are required.
- Keep the drill out of the reach of children; not suitable for children under the age of 18.
- Only use with machines and chucks suitable for the drill to ensure safety.
- Ensure that the drill bit is correctly clamped in the drill to prevent it from falling out.
- Do not overheat the drill bit, as this can cause material damage; use cooling if necessary.
- Inspect the drill bit for damage before each use and do not use damaged tools.
- When using drills, observe all safety instructions in the operating instructions; only allow qualified personnel to operate them.
- Avoid using near flammable materials to reduce the risk of fire.
- The work area should be kept clean and free of obstacles to avoid accidents.
- Only use the drill bit for suitable materials and observe the speed and feed recommendations to avoid material damage and wear.
