Safety Instructions:

- Use suitable personal protective equipment such as safety goggles and gloves to avoid injury.
- The product is not suitable for children and should be stored out of their reach.
- Check the drill bit and the machine for damage before use.
- When using electrical tools, avoid proximity to water or moisture to minimise the risk of electric shock.
- Only use the drill bit in materials intended for this purpose in order to avoid overheating, breakage and risk of injury.
- Keep hair, loose clothing and jewellery away from rotating parts.
- Do not use in the vicinity of flammable materials.
- Ensure that the drill is properly positioned in the machine and firmly clamped to minimise safety risks.
- The workplace should be clean, well lit and free of obstacles to prevent slipping.
- Avoid direct skin contact with sharp edges of the drill bits to prevent injuries.
- Always wear protective gloves to avoid injury from sharp edges.
- Read the operating instructions carefully and only use the machine in accordance with the manufacturer's instructions.
- Do not exceed the recommended speed to minimise overheating and breakage.
- Use a suitable safety tool to prevent the drill bit or workpiece from slipping.
- Hold the drill firmly to prevent it from slipping or twisting.
