Safety Instructions:

- Caution: Sharp blades and edges, risk of injury; use suitable protective equipment.
- Use suitable personal protective equipment (safety goggles, gloves, hearing protection) to avoid injury.
- Only use the product for its intended purpose and do not make it accessible to children.
- Ensure that the drill bit is securely clamped in the drill chuck and that the workpiece is secured to prevent it from slipping.
- Do not use in the vicinity of flammable materials; be aware of possible hazards from metal shavings.
- The product may only be used by trained personnel; read the user manual and safety instructions before use.
- Keep hands and other parts of the body away from the drill during operation.
- Check drill bits regularly for damage and replace damaged tools immediately.
- Store the product in a safe, dry place out of the reach of children.
- Do not use the tool on smooth or unfamiliar surfaces to prevent it from slipping.
- Wear suitable safety equipment when using twist drills to avoid mechanical injuries.
- Ensure that the drilling device is suitable for the respective materials in order to avoid overloading.
- Do not work on damaged or worn parts and do not remove any protective devices during operation.
- Ensure adequate ventilation when working with materials to minimise health risks.
- Before drilling, check the material strength and the appropriate speed.
