Article Numbers: 306320, 306317, 306316, 306315

Safety Instructions:

- Only set up the ladder on a firm, level and non-slip surface that is stable to prevent it from tipping over.
- Before each use, check the ladder for cracks, wear or damage and ensure that it is stable.
- Avoid overloading the ladder. The specified maximum load must not be exceeded.
- Ensure that all rungs are dry and clean to avoid the risk of slipping.
- Do not use the conductors in the vicinity of electrical cables.
- The ladder should be supervised by a second person, especially when used at height. Always call at least one person for help when the ladder is in use.
- Children should not play unsupervised near the ladder and should be kept away from its use.
- Follow the manufacturer's instructions for installation and use to ensure safety during use.
- Avoid using the ladder in poor weather conditions such as rain or wind.
- Keep the conductors away from hot surfaces and chemical liquids.
- Secure the ladder against accidentally falling over or slipping, especially when used as an extension ladder.
- Always hold on to the rungs when climbing up and down.
