Safety Instructions:

- Risk of suffocation due to improper handling of the ladder, especially when used as a single ladder.
- Risk of falling due to improper ascent or descent, especially on uneven or slippery surfaces.
- Health risks due to sudden movements or overloading of the ladder.
- Do not overload the ladder and always set it up on a stable surface.
- Make sure that the ladder is fully extended and locked in place before using it.
- Enclose safety instructions for correct use.
