Article Numbers: 306419, 306418, 306417, 306416, 306415, 306414, 306413, 306412

Safety Instructions:

- Always erect the ladder stably and on firm, level ground to prevent it from tipping over.
- Observe the maximum load capacity of the ladder and do not overload it.
- Check for damage or signs of wear before use. Do not use if damaged.
- Ensure safe standing by using self-locking brake castors.
- Do not tilt the ladder above the maximum inclination of 21°.
- Only use for the intended purpose.
- When moving the ladder, operate the brake rollers and keep them in good condition.
- Use the handrail and grab rail where available to increase stability.
- Only qualified personnel should use the ladder; do not leave children unattended.
- Protect the ladder from unauthorised use and ensure clear safety instructions.
- Do not use in the vicinity of electrical cables.
- Read the operating instructions and safety instructions before use.
- Avoid risk of suffocation and slipping due to improper use and unsecured standing surface.
- If the product is damaged, take it out of operation.
