Safety Instructions:

- Wear safety goggles to avoid eye injuries.
- Wear suitable gloves and protective clothing to avoid cuts.
- Only use in properly functioning machines and ensure that the drill bit is correctly seated in the drill chuck to prevent it from spinning.
- Not suitable for children under 14 years of age, keep product out of reach of children.
- Keep the work area clean and tidy, avoid tripping hazards and accidents.
- Take care when handling sharp edges and tips of the drill bit, use protective goggles and gloves.
- Avoid contact with rotating parts and the drill tip during operation to prevent injuries.
- Use only for the intended purpose, improper use can lead to material wear or breakage.
- When used in the vicinity of flammable materials, sparks may occur; take suitable precautions.
- Avoid overheating due to additional load, use appropriate coolants or cooling methods.
- Check the drill bit regularly for wear or damage to ensure safety.
- Use suitable respiratory protection if harmful dust or vapours are released.
- Improper handling may result in injury; use only by trained specialists.
- Keep children and pets away from the working area.
- The product is not suitable for use in damp environments in order to avoid electrical hazards.
- Do not use above maximum speeds and temperatures to avoid material damage.
- Store safely after use to avoid accidents.
- Follow the disposal instructions to minimise the risk of injury.
- Warning: Higher strength products may cause unexpected breakage, take appropriate precautions.
