Safety Instructions:

- Take care when handling the product to avoid injury.
- Always wear safety goggles to avoid eye injuries (e.g. from swarf).
- Use suitable personal protective equipment such as gloves and, if necessary, hearing protection to prevent injuries.
- Ensure that the drill bit is suitable for the material in order to avoid material fatigue and breakage.
- Dispose of sharp and damaged tools in accordance with local regulations.
- Keep the product out of the reach of children and unauthorised persons, as it is not suitable for children and poses a risk of injury.
- Ensure that the product is only used with suitable tools and in accordance with the operating instructions.
- Check the tool regularly for wear or damage and replace it if necessary.
- Keep the work area clean and free of tripping hazards.
- Do not work near flammable materials and follow the instructions for safe handling to minimise the risk of accidents.
- Avoid contact with sharp edges and tips to prevent cuts.
- Ensure that the workpieces are stabilised to prevent accidents during drilling.
- Before use, check that the thread size is correct and that the drill bit is suitable for the desired material.
- Do not apply excessive force during use to avoid breaking the tool.
- The product should be used in accordance with the manufacturer's instructions and the operating instructions.
