Product Safety Information

Maschinengewindebohrer DIN 374C M30x2mm HSS-Co 6H PROMAT

Manufacturer/Responsible Person: Schäfer Shop GmbH, Industriestraße 65, 57518 Betzdorf, Deutschland
E-Mail: info@schaefer-shop.de

Please note the technical data of the products!

Article Numbers: 707602, 707601, 707599, 707598, 707585, 707576, 707559, 707558, 707538, 707537, 707536, 707535, 707533, 707532, 707531, 707530, 707529, 707528, 707527, 707525, 707524

Safety Instructions:

- Wear suitable protective equipment such as safety goggles and gloves before use to avoid eye and skin injuries.
- During use, ensure that the drill bit is firmly clamped and the machine is in a stable position to prevent it from slipping.
- Do not use beyond the maximum load capacity to avoid breakage and injury.
- Only use tools with suitable machines and for the intended materials in order to avoid damage.
- After use, store the product safely away from moisture and corrosion and check regularly for damage.
- Only trained personnel should operate machines to avoid improper use and injury.
- The machine should be switched off and unloaded before maintenance work to avoid accidents.
- Do not use near flammable materials or children and keep out of their reach.
- Observe the instructions for use and only use the tool in accordance with the instructions to ensure safety and functionality.
- Ensure regular maintenance and check for wear and tear to prevent accidents.
- Take care when using sharp tools to avoid injury from edges and points.
- Protective equipment is recommended for personal safety during use.
- Avoid using the device near unprotected body parts or textiles to reduce the risk of injury.
