Grundsätzlich sind alle unsere Papiere für die täglichen Büroanwendungen auf den gängigen Büromaschinen geeignet, sofern sie nicht für spezielle Anwendungen (wie z.B. Thermopapier für Faxgeräte) gekennzeichnet sind. Selbst Umweltpapiere haben mittlerweile sehr vorzeigbare Maschinenlaufeigenschaften. So bestimmt die Wahl des Papiers vorrangig sein gewünschter Einsatzzweck, das verwendete Druckverfahren, der Umweltgedanke und – immer häufiger die Altersbeständigkeit nach DIN-Vorgaben.
